

# Introducing Veterans Sanctuary

Veterans Sanctuary, located in Allentown, is a Residential Drug and Alcohol Addiction Treatment Center serving male and female Pennsylvania Veterans.

Veterans Sanctuary was created because there is a shortage of variable-length, residential treatment in the VA system. Our program will be tailored to Veterans and will honor their military service.

Veterans Sanctuary has received support from corporations, foundations, and community members who value our Veterans' service to our country and want to make sure their needs are met.

Thank you for your support!
