SLUHN Groundwork

- ED feedback and Pain Management Initiatives underscored the need
- County task group educated our system on the scope /gravity of concern

Launch of HOST collaborative

- Key Senior Leadership and inter departmental leaders brought together
- County and Mid Atlantic Rehab provided services proposal
- Team worked toward business agreement to implement program
- Monthly meetings as follow up/ now quarterly
- Continuous communication Crisis / Care Management/ ED leadership

Accomplishments

- Able to utilize the platform to consider additional services (Endocarditis Pilot)
- Every patient / family at least have the resources

Changing Practice

- Nursing and provider education
- Ongoing collaboration with Care Management team
- Early patient identification and referrals to the program
- Implementing safe and effective pain management practices
