A MONTH TO #FendOffFentanyl

On Monday, January 22, US Senator Bob Casey held a press conference at the Allentown Police Department to discuss two bills that will aim to slow the movement of fentanyl from Mexico to the United States at the border.

TTI Recovery Center staff, Brandy Rosania and Lauren Wassum, had the opportunity to speak during the conference and share their experience working in the field.

TTI Staff in the Community

On Friday, January 12, Allentown The Center's Program Director, Brandy Rosania, attended a roundtable event at the Judicial Center in Harrisburg. The event focused on what Pennsylvania counties are doing to support recovery and individuals who need various services. Brandy emphasized the importance of CRS roles and how The Center has been supporting Judge Faulkner in his local Magistrates office.

On Tuesday, January 23, Allentown the Center Program Director, Brandy Rosania and CRS, James Ashmore, spoke with Criminal Investigators from

Brandy Rosania and James Ashmore

Lehigh and Northampton Counties at the Hanover Township Office in Bethlehem. They discussed TTI programs and CRS roles, as James was able to touch on his own personal experience with addiction and how it helps him in his role today.

On Wednesday, January 31, a press conference was held at the Northampton County Human Services Building for the one year anniversary of the *Fake is Real* campaign that aims to reduce the harm from fentanyl and bring awareness to the dangers of the drug. One of the incredible initiatives of this campaign is to provide weather proof boxes full of Narcan outside of TTI's Recovery Centers in Northampton County. Anyone who wants to can take as much as they need. With the help of Northampton County Drug & Alcohol, the boxes will always stay full of the life-saving medication.

Spring Trainings

The [TTI Training Institute](#) kicks off on April 19, 2024 at Allentown Halfway Home! Take a look at the Spring session now at www.treatmenttrends.org/ttitraininginstitute

Real Voices of Recovery
