

New Things Coming...

August is an exciting time for Treatment Trends! With the reopening of Allentown Residential on South 6th Street, and the opening of the brand new Slatington Outpatient, we have been busy.

We cannot wait to share with you what we have been working on to support the recovery community, as well as those still fighting to find their freedom from their drug of choice.

Keep an eye on social media for real time updates!

Summer Sun Safety Month

As the most common form of cancer in the United States, August focuses on sun safety to promote simple daily habits to keep you safe during the summer months. Some of these things are:

- Staying in the shade
- Wearing protective clothing and cover ups, UPF protective when able
- Wearing a brimmed hat to protect the neck and ears
- Wearing sunglasses
- Wearing sunscreen daily, as well as reapplying every 2 hours
- Engaging in educational programs about sun safety

“Create the life you love, so you never need a vacation. Just a picnic.”

Summer Picnic Celebration

Across the Treatment Trends Inc network, the Administration team hit the road to show its appreciation for each of our locations. This month this included visits to the Hope Center in Bethlehem on July 9th, Allentown Outpatient on July 15th and finally the Halfway Home on July 24th.

With Executive Director John Dillensnyder at the grill, table full of toppings and desserts, words of appreciation and laughter throughout each building. It's important to take the moments where we can to take a break and enjoy some food and sunshine.

Free haircuts return!!!

After a short break, free haircuts for men, women and children are returning to Palmer Recovery Center. On Mondays from 2-3pm, our volunteer stylist will be taking clients. Please RSVP to Deb or via the website.

In addition, over at the Hope Center, Master Barber Lawrence Wright is also offering his services the first Monday of each month from 12-3pm.

"A fresh haircut is the ultimate form of self-care."

Board Member Shoutout

Bekah

Chairwoman of the Board

Bekah joined our board in 2023, after a conversation with our Executive Director. During which he outlined the history of Treatment Trends, and while creating a new brand for Treatment Trends, had a very close friend enter rehab and start their own recovery journey. Inspired by this, and our mission of "Find Recovery. Heal Community," she appreciates that concept that when everyone does their part, together we become healthier and stronger. When asked to describe TTI in one word, she said "resilient."

Staff Highlight:

Jessica

*Admissions Coordinator
Halfway Home*

Jessica has been with Treatment Trends for 6 years, and got into the field to understand addiction on a deeper level. She has a big heart for helping people, and loves being a part of their journey to get better. She is inspired by the strength and resilience of the people we serve, and appreciates that everyday is different, and there is something new that she learns everyday.

An item from her bucket list is her desire to go to Sweden. She is Swedish herself and overall hopes to travel outside of the country.
