TTI has suspended admissions to our Allentown Residential program. Effective May 1, 2024, and into the foreseeable future, we will not be accepting any additional clients into the program. The individuals currently at Allentown Residential will complete their treatment with us.

At this time, I would like to honor the staff, past and present, of Allentown Residential (our former Keenan House) who have devoted themselves to the care of each individual who came through the doors. This program was born in 1972, and in the decades since our extraordinary staff has served with distinction. Our staff members impacted thousands of lives. I thank each and every one of them from the bottom of my heart.

The TTI Board of Directors and our leadership team are examining how to best repurpose our building on South 6th Street in a way that supports our mission of alleviating the suffering caused by Substance Use Disorder. Our other treatment programs, Allentown Outpatient and Allentown Halfway Home, are thriving, as are our Allentown Recovery House and the Recovery Centers we operate with Lehigh and Northampton County support.

Please direct any questions to myself.

Thank you all,

John Dillensnyder
Executive Director
