

For more than five decades, Treatment Trends has been supporting individuals in our community by giving them the opportunity to free themselves from addiction. The organization and all those involved are passionate about providing hope and a pathway forward to recovery. In 2023, that goal is still the same, but we have changed.

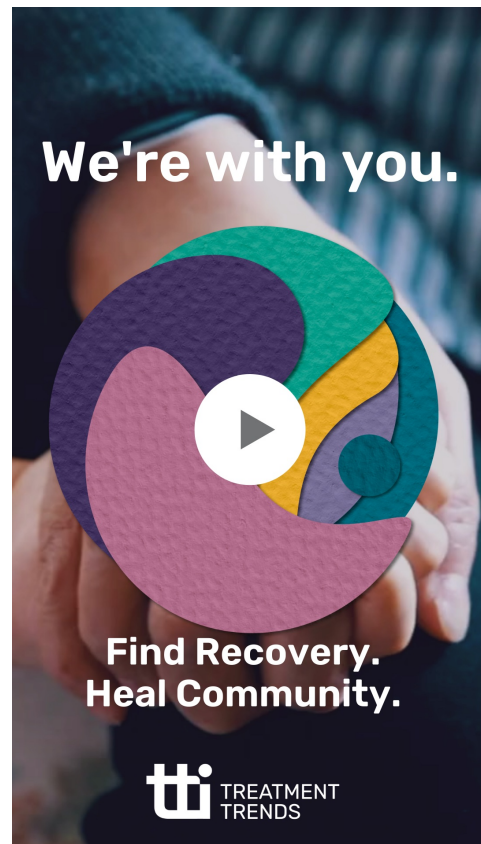

We've expanded upon our mission, vision and brand to strengthen our organization by becoming more consistent, more intentional, and more effective in our efforts to make a difference. With the launch of our new website and official announcement of our rebrand, we are ready and capable to grow our programs and support those we serve every single day. *If you need us, we're with you.*

No matter what phase of recovery you're in, our continuum of care offers us the ability to walk with you on your pathway. From residential, to halfway home, to outpatient, to community recovery; *we're with you.*

The TTI icons reflect the level of care offered through our continuum.

A New Look for TTI

Each of our programs have been reconfigured to better reflect who we are and why we do what we do. With that, comes new, more consistent identities for each.

Allentown Residential

Previously known as Keenan House, Allentown Residential offers a safe, supportive temporary home for individuals seeking treatment. We have restructured our program to better meet the needs of those suffering from substance use disorder and any challenges they face.

Allentown Halfway Home

Previously known as Halfway Home of the Lehigh Valley, Allentown Halfway Home is an effective and efficient residential treatment program for individuals to become reintegrated into society as they navigate and maintain their pathway to recovery.

Allentown Outpatient

Previously known as Confront, Allentown Outpatient offers IOP, OP, and Early Intervention services for individuals seeking support. Allentown Outpatient provides services to both adolescents and adults who suffer from trauma and addiction.

Allentown Recovery House

Previously known as Richard S. Csandl Recovery House, Allentown Recovery House continues to provide affordable housing for adult men who maintain their sobriety and are

just shy of being ready to enter society fully on their own. The Recovery House offers that last bit of support before they reach their full independence.

Allentown Recovery House will remain in memory of one of our founders, Richard S. Csandl.

Our Recovery Centers

Through partnership with Lehigh and Northampton County Drug & Alcohol, our Recovery Centers are an active resource and support system for those seeking and maintaining recovery. Allentown The Center, Bethlehem Hope Center, Northampton Change on Main, & Palmer Recovery Center have become a shoulder to lean on as they provide a true outlet and support system for thousands of individuals every single day.

The mission of our Recovery Centers is to instill hope and encourage recovery through connections in a safe, supportive environment. The Centers envision that individuals who are seeking and maintaining recovery will be able to reestablish a meaningful life with purpose, in a community free of stigma against substance use disorder.

Find Recovery. Heal Community.
